

Ravani Roshan

Frontend Developer · AI Product UI Builder · React/Next.js Developer
Ahmedabad, Gujarat, India · +91 91060 95375 · ravaniroshansingh@gmail.com · github.com/RavaniRoshan

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate focused on frontend development, React/Next.js applications, AI product interfaces, browser extensions, and developer-tool UX. Built projects including a cinematic product landing page with Three.js/WebGL, an intelligent PDF-reading browser extension, and highly polished product landing pages for multi-agent systems and open-source tools. Experienced with React, TypeScript, Tailwind CSS, Three.js, GSAP, browser extension architecture, and responsive design.

EDUCATION

Silver Oak University

B.Tech, Computer Science Engineering

Ahmedabad, Gujarat, India

CGPA: 8.0

EXPERIENCE

Google Developers Group

Core Developer

Oct 2023 – Dec 2025

Ahmedabad, Gujarat, India

- Led technical sessions for a 200+ developer community on web development, AI tooling, product interfaces, and API integration.
- Mentored peers on building applications with React/Next.js, TypeScript, UI components, and cloud deployment.
- Contributed to community projects across web infrastructure, automation, and developer platforms.

PROJECTS

niki-site – Niki Product Landing Page | *JavaScript, TypeScript, HTML, CSS, Responsive Design* Jul 2026 – Present

- Built the product landing page for Niki, an open-source multi-agent coding system, with responsive design, feature showcases, and developer-focused onboarding flow.
- Implemented interactive product demonstrations, architecture diagrams, and clean responsive layouts.

Kimi Agent Mnemo – Cinematic Landing Page | *React, TypeScript, Vite, Three.js, GSAP, Lenis* May 2026 – Present

- Built a high-performance cinematic product landing page using React, TypeScript, Vite, Three.js/WebGL, GSAP, and Lenis.
- Implemented immersive UI sections including 3D memory grids, WebGL particle systems, scroll-triggered animations, glassmorphism, and responsive narrative.
- Designed polished product storytelling across desktop and mobile with animation choreography and visual hierarchy.

OPEN_PDX – Intelligent PDF Reading Browser Extension | *JS, HTML, CSS, Chrome APIs* Apr 2026 – Present

- Built a browser-based PDF reader that rewrites complex documents into Normal, Simple, and Technical reading modes.
- Implemented extension architecture with reader-tab flow, content scripts, background logic, PDF sync, and Markdown rendering.
- Added stealth peek mode, multi-column safeguards, ligature fixing, and scanned-document detection.

Phantom Product Site | *TypeScript, React, Vite, Tailwind CSS, shadcn/ui*

Jul 2026 – Present

- Built a full product landing page for an open-source background computer-use agent with animated hero, feature cards, architecture diagrams, and CLI demos.
- Designed responsive layouts, interactive product demos, and developer-focused onboarding flow.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, shadcn/ui, Vite, responsive design

Animation & UI: Three.js, WebGL UI, GSAP, Lenis, scroll-triggered animation, particle systems, glassmorphism

Product Interfaces: AI product UX, developer-tool UI, onboarding flows, landing pages, dashboards, browser extensions

Integration: REST APIs, serverless routes, GitHub App flows, Razorpay payment UI, LLM APIs, Chrome extension APIs

Deployment: Vercel, GitHub Pages, Render, GitHub Actions, npm, Git, Figma-to-code workflows

CERTIFICATIONS

Web Development: Front End Development Libraries (freeCodeCamp, Feb 2025), Webflow 101 (Webflow, Nov 2024)

AI & Tooling: Claude Code in Action (Anthropic, Mar 2026), Responsible AI: Privacy & Safety (Google, Jan 2026), LangChain for LLM Application Development (DeepLearning.AI)

Other: Foundational C# with Microsoft (freeCodeCamp, Nov 2024)
